

Volumizing Restructures and regenerates

REGENYAL IDEA BIO-EXPANDER is a remarkable Biorivolumetria product, that enables a complete rejuvenation of the face through volumetric correction and tissue re-structuring. The product integrates perfectly and follows natural shapes. Injected into the subcutaneous layer, the product will improve the skin in terms of elasticity, hydration, turgor, stimulation and recovery of the adipose tissues. The properties of **REGENYAL IDEA BIO-EXPANDER** are:

- REGENERATING
- RE-STRUCTURING
- VOLUMIZING

Indications

- CHEEKS
- PERI-ZYGOMATIC AREA
- MANDIBULAR AREA
- HANDS
- DECOLLETÉ

NATURAL RE-SHAPING OF FACIAL VOLUMES

MICRO-CANNULA 37mm 27 G

Designed specifically to be used with micro-cannula, the product spreads perfectly within the tissues following the natural shapes of the face. As big amounts of water are attracted, the product immediately **BIO-EXPANDS** rebalancing the volumes of the face. The native intercalated Hyaluronic Acid contained, provides for the re-structuring of tissues.

IT IS RECOMMENDED TO REPEAT THE TREATMENT AFTER 4/5 MONTHS
