

Sweet Skin System

Sweet Skin System Lines (Professional – Home Care)

Glycolic Acid and active principles based products, resulting from rigorous experiments and trials. Their use is governed by professional protocols, designed ad hoc to correctly treat specific blemishes.

Sweet Skin System - is a treatment system that offers efficacy, safety and is easy to use.

Professional Line

CLEANSING GEL AHA 5%

Gently and efficiently removes impurities, uniformes the skin's pH level and prepares the skin for following treatments.

GEL SOLUTIONS A.H.A. 25% 35% 50% 70%

Designed to treat various skin blemishes: wrinkles, acne, spots, hyperkeratosis, stretch marks, cellulite, small acne-caused scars. These solutions reduce the thickening of the corneous layer and make it firmer. They activate the Glycosaminoglican precursors and settle the cellular energy metabolism, both at keratinocyte and fibroblast level; they, thus, support the transmitting of other specific active principles.

The different concentrations help to choose the right solution according to the type of skin.

NEUTRALISER

Product used for neutralising the actions of Glycolic Acid.

REVITALIZING SERUM

To be used right after the peeling and before the mask. Moisturizes the skin thanks to the high concentration of Hyaluronic Acid.

POST-PEELING MASK

Has to be applied right after the Revitalizing Serum and left on for about 5-10 minutes. The mask decongestions, relieves and nourishes the skin.

LENITIVE CREAM

The cream is to be used after the post-peeling mask is removed. Thanks to its composition, this cream has lenitive, moisturizing and decongestion properties.

Home Care Line

CLEANSING GEL AHA 5%

An every-day product for deep cleansing of the skin. Gently and efficiently removes impurities.

Instructions for use: Apply by gently massaging, rinse off with water (in the morning and in the evening).

SENSITIVE SKIN CREAM AHA 8%

smoothing – anti-oxidant - revitalizin

Indicated for all types of skin, especially for sensitive, delicate and young ones. Because of its particular composition the products performs a triple action: Smoothing – Anti-oxidant – Protecting. The constant use of this product stimulates the synthesis of collagen, moisturizes and smoothes the skin, making it look bright and healthy.

Instructions for use: After having cleansed the skin with the Sweet Skin Cleansing Gel A.H.A. 5%, gently massage the cream onto the face (in the morning and in the evening).

FACE CREAM AHA 8%

smoothing – anti-oxidant - revitalizing

Favours the exfoliation of the corneous layer, increases the cellular turn-over, stimulates the synthesis of new collagen and the re-structuring of elastic fibres in the derma, moisturizes the skin, protects against photo-ageing and against free radical-caused damages.

Instructions for use: after having cleansed the skin with the Sweet Skin Cleansing Gel 5%, gently massage the cream onto the face (in the morning and in the evening).

FACE CREAM AHA 12%

smoothing – anti-oxidant - revitalizing

Cream designed for thickened, hypo-tonic, dehydrated skins with wrinkles. Favours the exfoliation of the corneous layer, increases the cellular turn-over, stimulates the synthesis of new collagen and the re-structuring of elastic fibres in the derma, moisturizes the skin, protects against photo-ageing and against free radical-caused damages.

Instructions for use: after having cleansed the skin with the Sweet Skin Cleansing Gel 5%, gently massage the cream onto the face (in the morning and in the evening).

FACE CREAM AHA 20%

smoothing – anti-oxidant - revitalizing

Indicated in case of hyperkeratosis, wrinkles, marked aging signs and skin laxity. By stimulating cellular metabolic processes, favours a deep renewal of the skin. The cream contains anti-oxidant substances that properly protect the skin against free radicals.

Instructions for use: It is recommended to use this cream to those who already use the AHA 8% and AHA 12% face creams.

LENITIVE CREAM

Designed for all types of skin, has soothing, moisturizing and decongestion properties.

Instructions for use: Whenever necessary, gently massage the cream onto the face.

GEL OILY AND ACNEIC SKINS AHA 10%

Helps to reduce the corneous layer and to release the sebaceous follicle. Given its particular formula this product offers purifying and sebum-regulating properties.

Instructions for use: After having cleansed the skin with the Sweet Skin Cleansing Gel 5%, apply the product gently and uniformly, especially in case of acne in its active phase (in the morning and in the evening).

CREAM PIGMENTED SKINS AHA 10%

Indicated for all types of hyper-pigmentation or irregular pigmentations, such as melasma, post-partum spots, senile spots etc. Favours exfoliation, helps to eliminate superficial pigment accumulations (melanin), by interfering with the tyrosinase action (a key enzyme in pigment synthesis) and settling the synthesis of melatonin by melanocytes.

Instructions for use: After having cleansed the skin, apply onto areas concerned. Can be used together with other products of the Sweet Skin System range.

EYE CONTOUR GEL AHA 4%

The particular composition of this gel, that contains Glycolic Acid and specific active principles, provides for its smoothing, anti-oxidant, toning and moisturizing action in the area surrounding the eyes.

Instructions for use: Gently massage the product onto the area around the eyes (in the morning and in the evening).

ACTIVE C (100% Vit C)

The Vitamin C favours the synthesis of collagen and the production of the extracellular substance, it improves the regenerative processes of skin tissues, protects the skin and offers anti-inflammatory properties. This micro-emulsion is designed to treat skins with photo-aging caused alterations, wrinkles, oxidative damages caused by free radicals, reduced synthesis of collagen. ACTIVE C makes the skin look fresher and smoother, and significantly more tonic.

Instructions for use: open the white seal and push the red button to mix, remove the tap and use the measurer to distribute the product onto areas to be treated.

Once opened, each bottle maintains the active principle unaltered for 10 days; to be used in the morning and in the evening.

REVITALIZING SERUM

A product with strong moisturizing properties thanks to the Hyaluronic Acid. Can be used as adjuvant in treatments with AHA-based products.

Instructions for use: Gently massage onto the skin until complete absorption (in the morning and in the evening).

MOISTURIZING-NOURISHING FACE CREAM

This cream is indicated for dry, dehydrated and under-nourished skins. Helps to restore the hydrolipidic film, as it provides amino-acids necessary for the nourishment of the skin. Supports regenerating processed and combats free radicals.

Instructions for use: use after cleansing (in the morning and in the evening).

SUN FILTER HIGH PROTECTION

Moisturizing

Water- and sweat-resisting filter. Protects from UVA and UVB rays. Provides for a safe exposure to the sun, thanks to the Kojic Acid among its ingredients. The skin appears moisturized and softer, ready for a homoge-

neous suntan.

Instructions for use: gently massage the filter onto the skin until complete absorption.

MELAJEUNE

A Melatonin-based product, meant for mature, hypo-tonic and dehydrated skins with photo-aging caused damages. Its particular composition (Vitis Vinifera, Phytic Acid, Vitamin E, Vitamin A, Hyaluronic Acid) helps to restore the physiological balance of the skin and provides for regenerating, anti-oxidant and moisturizing actions.

Instructions for use: apply onto the face, neck and hands in the evening, after one of the Sweet Skin System Glycolic Acid-based creams. In order to prevent sun-cause erythema apply the product onto areas concerned a few days before sun tanning. Repeat the action during tanning (to be used together with the sun filter) also on areas where the skin is thinner: breasts, abdomen, arms, forearms.

Sweet Skin Nature

CLEANSING MILK - Sweet Skin Nature

Hyaluronic Acid

A creamy cleansing lotion for face and neck rinsing and make up removal. Helps to revitalize the epithelial tissues and offers an efficient anti-aging action thanks to the synergy between Hyaluronic Acid and Vitamin E. For all types of skin.

Instructions for use: with your hands or with the help of a cotton-wool, gently massage onto the face, making circular moves. Avoid the area around the eyes. Rinse off with water. It is recommended to use the Milk in the morning and in the evening and prior to any kind of facial treatment.

TONER - Sweet Skin Nature

Hyaluronic Acid

An alcohol-free lotion for all types of skin. Completes and strengthens the action of the Cleansing Milk, due to its refreshing and moisturizing properties. A smoothing effect is obtained thanks to the Hyaluronic Acid.

Instructions for use: with the help of a cotton-wool apply the product by gently tapping the skin.
